

LAW IN ACTION

HOW TO JUDGE WITNESS

As a juror you are a judge of the evidence presented at a trial. In order to reach a proper verdict, you have to decide what to believe and what not to believe. One person can't believe two diametrically opposed statements.

But alas, there is no foolproof way to sift out the true from the false. Lacking a surefire truth detector, our jury system is the best method yet found.

So the jurors must consider the factors affecting the witnesses' credibility so far as the evidence discloses them—age, education, work, or looks and conduct on the witness stand; relationships between the witness and the parties; stakes in the trial's outcome; bias, if it appears; the strength of the witness' memory; the chances they have had to see, hear, and know what they have testified to; their candor; the reasonableness of their testimony.

Witnesses often differ in details due to their different opportunities or powers to observe, or their memory of what they saw, heard, or did. In view of these differences try to reconcile gaps when you reasonably can.

Consider why a witness may make untrue statements: Is it because of confusion, nervousness, mistakes, poor memory, thoughtlessness, lack of intelligence, or evil intent?

The law assumes that the common sense and experience of 12 men will be more reliable than that of only one, in finding the truth among the statements offered by witnesses in a trial. The conclusions of the 12 jurors will be safer and wiser because of the broad background of education, age, profession, and experience brought to bear on disputed matters.

Note: California lawyers offer this column for you to know about our laws.

Watch These Turn Signals When Driving

Make sure the turn signals on your car are off when you are not going to turn, warns the California Highway Patrol. "Approved turn signals may be used to indicate you are about to make a left or right turn in traffic," declared Patrol Commissioner B. R. Caldwell. "Use them properly, but make sure they are turned off after the turn is made.

Recently a quite serious accident occurred when a driver failed to make a turn at an intersection after displaying a lighted turn signal for some distance prior to entering the intersection," Caldwell stated. "An oncoming driver, also with turn signal lit, figuring the other car was going to turn, made a left turn in front of the oncoming car.

Modern traffic demands close adherence to the rules and the proper use of safety devices on your motor vehicle," he concluded. "Turn signals are safety aids when properly used; they can be accident causing devices when used improperly."

"Of all human inventions, the most worthless is an excuse!"

TOO (TWO) MANY WIVES . . . "Brigham Young has 27 wives and I'll bet he doesn't have half the trouble I have with you, two," says Mormon Jacob Woodling (Pete DeCamp) when his wives, Elizabeth (Pat Leonetti) and Sarah (Barbara Goodyear), argue in "Paint Your Wagon," current South Bay Light Opera production which opened last week end. Two more performances are slated this Friday and Saturday at 8:15 p.m. at Redondo Union High School auditorium.

Handy Jim's FIX-UP TIPS For the Home

There's Storage in This Handsome Corner Table

A CORNER table with a storage unit fits neatly into a corner between two sofa-beds, providing a handy place for storing linens and pillows. In a child's room, it makes a fine toy bin and play table.

This table can be constructed of 1 x 2 lumber for framing, Masonite 3/16" tempered plywood for the sides and white Marlite for the top, which opens on the diagonal. A free plan detailing the construction and listing the materials may be obtained by sending a postal to the Home Service Bureau, Suite 2037, 111 W. Washington St., Chicago 2, Ill., and requesting drawing No. AP-8.

The attractive Marlite top provides a durable plastic surface that's resistant to scratches, burns and other abuse. It makes a good place for a lamp, ashtrays and books. An adhesive is used to fasten the top panel to its wooden framework.

In finishing the hardwood, apply first a primer and one or two coats of good grade paint or enamel. If a factory-printed hardwood is used, only one finish coat is needed. All the materials are available at lumber yards. Damp-wiping keeps the plastic-finished Marlite clean.
